This table above shows how certain activities are carried out, the service providers are very motivated despite the socio-political crisis affecting the country .

A photo taken during the distribution of mosquito nets for some pregnant and breastfeeding women .This activity is part of the fight against diseases linked to mosquito bites such as malaria .

Photo showing a meeting with employees ,an activity carried out once a month to review the functioning of the center in order to identify strengths and weaknesses and submit recommendations to correct weaknesses.

Often we say a picture is worth a thousand words, here is an example , a picture with children who have checked in the program and left with cured status, some children have spent

several months in the program and others no .This image shows a positive impact of the program .

Another picture with children with cured status

These children are currently in the program , an educational activity has been organized for the parents .

Sr Ducange Brenord (Marlyn) with the daughter of his son with cerebral paralysis .Admitted to the program but referred to a Pediatrician for better care .

A little girl admitted and hospitalized .

An activity organized during the past quarter on the occasion of mother's Day . The staff took the opportunity to give small gifts to encourage them and to mark the date .

A beautiful view of the health center, a part with the VPI logo to show our grateful.

A cholera education activity for patients in the waiting room .Since December 2022 we had had many cases of cholera in the community .

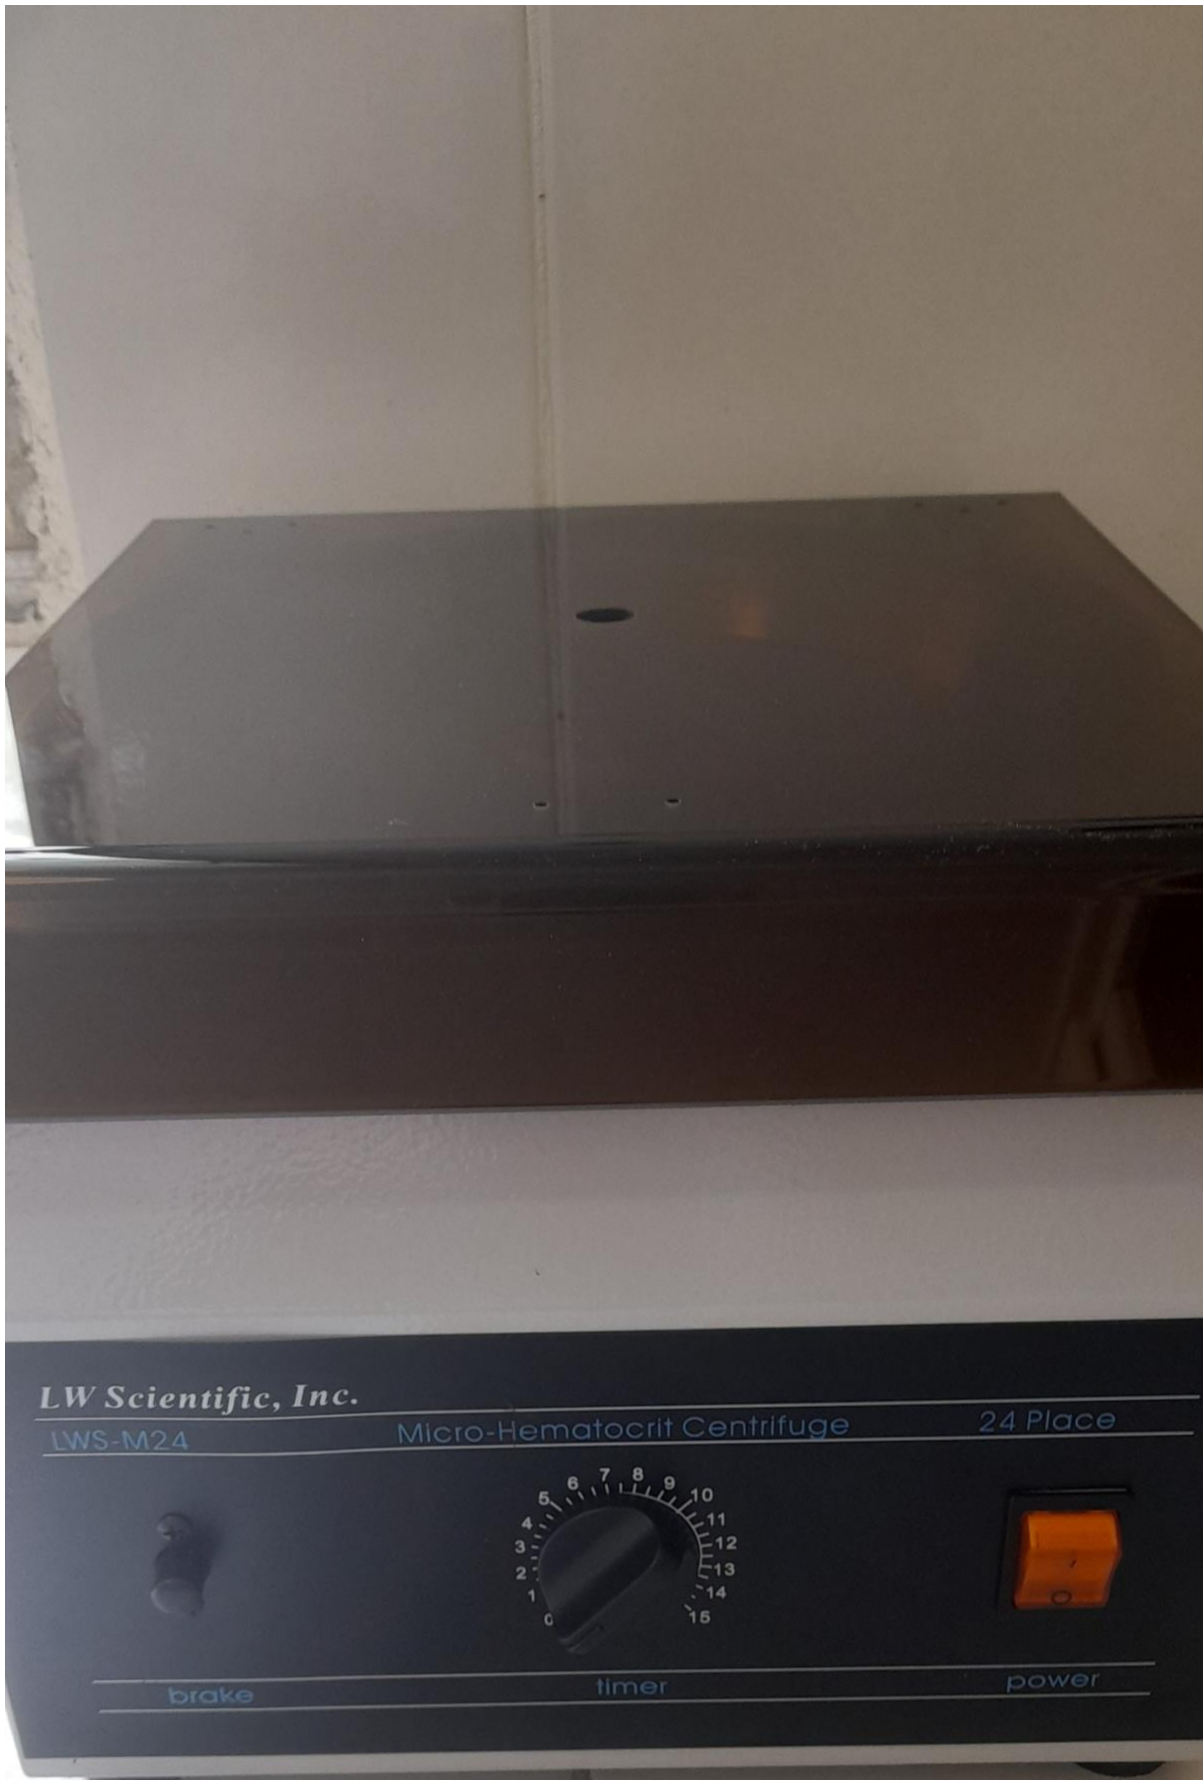

Dr Jean Heedelcal the volunteer doctor who participated in a mobile clinic in Grande Savane . Dr Jean Heedelcal is the new replacement for the outgoing doctor . He is from Mombin-Crochu and was studying medicine at the Haitian State University . He is a very good doctor, very responsible and dynamic. We hope that he fulfils his tasks with professionalism.

A child benefiting from the nutrition program .

METHODE EN TUBE

- 2000 ul de sérum
- Protéine (Su) de sang total en sérum
- On ajoute 20 ul de tam
- Remarquable
- Exemple 3 Lignes "10000"

Following a request made to Village Partners International for laboratory Materials (Micro and Macro Centrifuge),the staff received funds from Village Partners International . Now the problem is solved and the staff would like to thank Village partners International organization in a specail way for this great suppot. Without this support the laboratory risked paralyzing .

FÉLICITATIONS

Dr Michel Stephania
Emmanuella

*Pour vos 3 ans de service
remarquable
en tant que Médecin de service.
Votre dévouement et votre
expertise ont grandement
contribué à améliorer
la vie de nombreux patients.
Succès continus !!*

Fait à Mombin-Crochu,
le 10/07/2023
Dr. Cherenfant Miles
Directeur Médical

A plaque of honor was given to Dr Michel Stefania Emmanuela as a sign of recognition for her 3 years of remarkable works as Physician at the health center . A meeting was organized with some employees to thank Dr Michel for all the work done during the period .

Strong Points identified during the quarter

- 1- Employee Motivation
- 2- Customer satisfaction
- 3- Achievement of certain goal
- 4- Medical Surgery Mission

5- Achievement of planned activities

Weak points identified

- 1- Lack of human resources
- 2- Socio-economic crisis (cost of living) .
- 3- Extreme poverty of the majority of parents of malnourished children .

Recommendations

- 1- Follow-up with the Ministry of Public Health and Population to recruit other health professionals.
- 2- Support for poor families by donating food kits (Request from Village Partners International and the churches that are used to helping in these difficult conditions) .

Conclusion

As conclusion the staff would like to thank everyone specially Village Partners International for their support . A quarter with many activities that have a positive impact on the community . We just have presented a summary of some activities but others activities have taken place . We are determined to work together for the well being of the community .The only way that offers some hope for a better future for all humanity is that of cooperation and partnership .This is to say how proud the staff of Mombin-crochu health center is to partner with Village Partners International

Alone we can do so little; together we can do a lot Dixit :
