

Village Partners International
partnering to help people help themselves

Annual Report Highlights

Relief for victims of Hurricane Matthew in Haiti

Maternity care and nutritional support for infants in Uganda

Anti-malarial meds for school-aged children in Uganda

Repairs for water sources in remote Haiti

2016

Village Partners International believes in the mission of helping others help themselves. By so doing, you are giving a gift that will continue to work long after you have gone. Through God's grace and the generosity of our donors, much has been accomplished in 2016. In Haiti, relief for victims of Hurricane Matthew allowed homes to be rebuilt, gardens to be planted, livestock replenished, and food to be distributed. In the NW mountains, water was scarce, crops failed, and cholera again began to emerge. With the help of funds given, 13 clean water sources and 4 cholera safe latrines were built in remote areas. A nutrition program was begun to feed children who faced malnutrition and outreach programs continued in the Mobile Clinics. Funding of the hospital in the small community of Mombin Crochu served as a way for the people to receive care and medical treatment to be given. In Papoli, Uganda, the Medicine for Miracles program began, aimed at delivering vaccinations and medicines to children in the outlying rural areas who previously had no access to these basic necessities. The Robert H. Cooley Pediatric Clinic and Safe House continued to care for over 60 vulnerable children daily and over 400 safe deliveries occurred at the Jay and Janice Jester Maternity Clinic. Public Health initiatives continued, expanding the outreach through the use of volunteers. Because of the hard work of our partners and the generosity of our donors, lives are changed forever, hope is restored and God's message of love is shared around the world. Thank you.

Sylvia Campbell, MD President, VPI

VPI in Mombin Crochu, Haiti

Mombin Hospital Health Care Staff

"MAF is still putting the donations you sent to work. The last "investment" was sent to a missionary in PAP who has been working throughout southern Haiti on replenishing gardens, livestock, etc. She purchased fruit trees and fast bearing crops as well as goats for distribution to families in the South. The impact of VPI's donation has had a ripple effect. Thanks for letting me and MAF be a part of it. I'm so excited when I get to see tangible help getting to the people who need it the most. Thank you."
Michael Broyles, Pilot
Mission Aviation Fellowship

Support for 2 Doctors, 1 Hospital Administrator, 1 Financial Director and 1 Maintenance Supervisor

Support for Hospital Operations

Support for Mobile Clinic and Outreach

Support for Food for Healing Program, Medications for Hospital Patients, Nutritional Supplements for Malnourished Children

Medical Mission Trip to Mombin Crochu Hospital

Hurricane Matthew Disaster Relief and Cholera Prevention

2016

A farmer in Haiti receives goats to help rebuild his herd after losing his livestock in Hurricane Matthew.

2016 Expenditures

Total: \$219,806.75

For a comprehensive breakdown of the 2016 budget, please contact Village Partners International and we will be happy to send you a complete report.

In 2016, VPI was able to improve thousands of people's lives through the services of medical care, education, safe housing, feeding and nutrition programs, clean water, and other humanitarian assistance. By supporting the doctors, nurses and administrators, a growing stability and sustainability has been developed. Thanks to the support of our volunteers and donors, VPI will continue to partner with the poor, so that they can obtain the needed resources to create a lasting positive impact on their villages.
