COVID-19 education and vaccination program

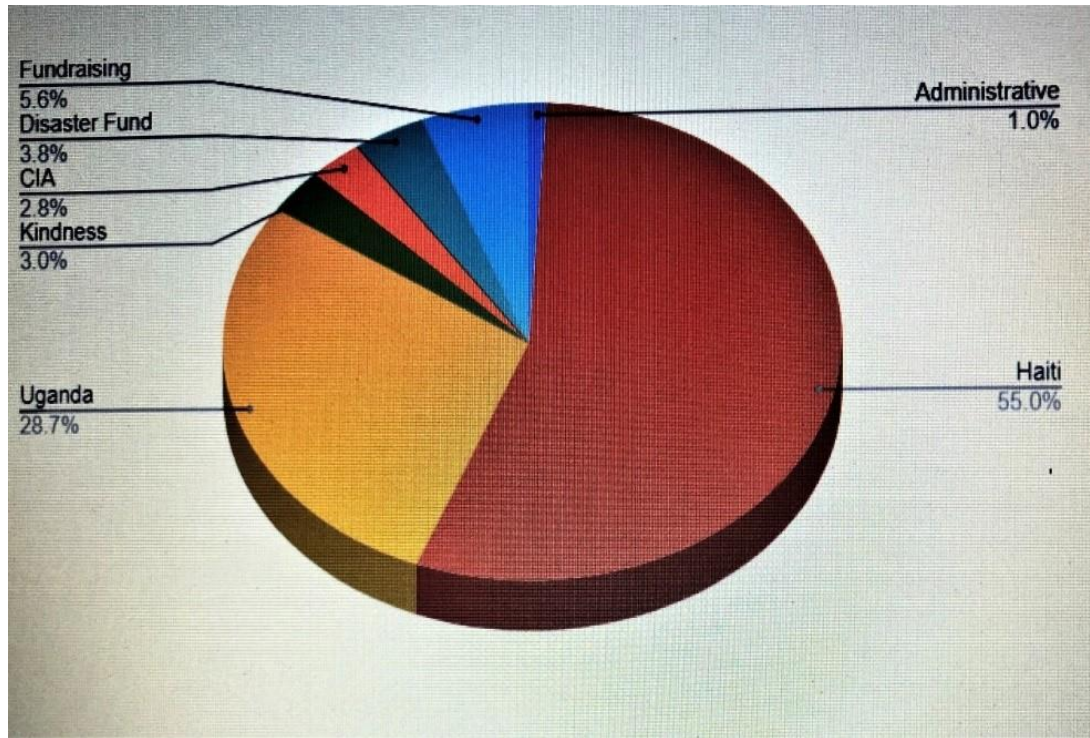

KINDNESS MATTERS

Weekly, VPI's Kindness Matters program supports early morning outreach walks through the streets of Tampa, where those experiencing homelessness are found in parks and on benches. By stopping, sharing stories, and names with those encountered, identity is given to people often not seen. Once a month, carts are taken which supply food, coffee, books, glasses, clothing, blankets, toiletries and other needed items. Every week, local supermarket gift cards are given to promote autonomy and independence. By seeing the invisible, we often see ourselves more clearly.

VPI Expenditures 2021

Dear Friends,

Your love and support have allowed Village Partners International to continue all of its life-giving programs throughout the year 2021. Unprecedented times, with the pandemic still in full force, have made the needs within our own communities, as well as within the world, so great. The future lies unwritten, as we continue to travel through uncertainty. Yet within the uncertainty lies the basic premise that by reaching out to those in need we restore hope to the world.

Your gifts have allowed high risk children to be cared for, safe deliveries to occur, elderly to be treated, malnutrition to be reversed, hospital care to be given, food and medication to be distributed, clean water to be supplied, homeless to be seen and fed, and so much more. Thank you for your care for those hurting in this world.

Sylvia D. Campbell MD FACS, President, BOD, Village Partners International
